

# KYRA<sup>®</sup> Curve<sup>™</sup> Spine Frame

Radiolucent. Clean Straps.  
600 lbs. Capacity.

The KYRA Curve Spine Frame provides maximum lordosis for Laminectomy, Decompression, Disc Surgery and Microdiscectomy procedures.

The KYRA Curve has a class-leading weight capacity of 600 lbs. (272kg). The comfortable integrated gel pads allow for the most abdomen space to accommodate today's larger sized patient.

The attached silicone straps eliminate the messy Velcro straps and are made of the same strong flexible material as the KYRA stirrups. The Curve fits "Jackson style" rails and OR tables.

*Patient Weight Capacity: 600 lbs. (272 kg)*  
*Device Weight: 31.4 lbs. (14.24 kg)*

- INTEGRATED GEL PADS
- ALLOWS FOR MORE ABDOMEN SPACE

- DURABLE SILICONE STRAPS
- HOOK & LOOP FREE
